

Strobe Lights

Kill Hannah

Strobe lights, storm in the summer sky
In your eyes cannons open fire
Go blind like world war nine
Welcome to the showTonight we cut like a samurai
You and I, Bonnie and Clyde
Strobe lights, chase the sunrise
Ready, set, explodeDance, wake up the sleepers
I'm staring at you now, I'm watching you
Dance, all you pale motherfuckers
I love how you move tonight in the strobe lightsStrobe lights found us just in time
First born, last in the family line
You burn like a Roman candle
A symphony's composedTonight we cut like a samurai
So alive, so alive, so alive, so aliveDance, wake up the sleepers
Can't stop staring at you now, I'm watching you, ooh
Dance, all you pale motherfuckers
I love how you move tonight in the strobe lightsDance, dance, wake up the sleepers
Wake up the sleepers, the strobe lights
In the strobe lights, in the strobe lights
