

Top of the World

Greek Fire

On top of the world, on top of it all, trying to feel invincible
Dying on top of the world
I remember the nights
Caught up in dreaming my 'goodbyes'
Watching the door for anything more than an ordinary life
I remember the days, days, days
New beginnings on an open 'page'
With something to prove and nothing to lose, not a soul to betray
Here I am
Living a dream that I can't hold
Here I am on my own
On top of the world, on top of it all, trying to feel invincible
On top of the world, on top of it all, trying to feel invincible
I'm dying on top of the world
I remember the lies
Caught up in building 'paradise'
The angels were slaves and demons behaved and
Everything was alright
Here I am
Living a dream that I can't hold
Here I am on my own
On top of the world, on top of it all, trying to feel invincible
I'm dying on top of the world
I hear the crowds beneath me
I'm wishing they could reach me
But I'm 'on top of the world'
Up here I'm dying alone
Inside the walls of gold, outside of happiness
It's all been a show, too late to confess
No room for heart and soul, no room for innocence, innocence
On top of the world, on top of it all, trying to feel invincible x3
But I'm dying on top of the world
