

Do That Dance

Callide

8x (boom boom)

It's like I roll up in the club on a friday
Got my girls fuel-ed up and on the runway
Looking hot, gel-ed up like
Do Get up get up we all here to go crazy
Run a check a little window shopping
Later on by the bar we'll be rocking
When we get up on the floor
This is how we goes
We all point yo
(Boom boom)
my flow, my show
(boom boom)
this is how enough the bass rolls
everybody good to go
(get your back up of the wall)
this is to all my girls from around the way
(get up)
let me see you do that dance
if you wanna party and you're here to stay
(get up)
let me see you do that dance
to all my fellaz who just here to play
(get up)
let me see you do that dance
zippin of me like they just got pained
(get up)
let me see you do that dance
It's getting so hot
(my ring a bling)
that a chick a little here up the young say
Do got my skirt reached up like
come on, come on if you wanna get naughty
All the fellaz in the club with their bling bling
don't you stand here grab a girl bringin in
when we get up to the floor
this is how we goes we all point ya
(boom, boom)
My flow, my show

this is how enough the bass rolls
everybody good to go
(get your back up of the wall)
this is to all my girls from around the way
(get up)
let me see you do that dance
if you wanna party and you're here to stay
(get up)
let me see you do that dance

to all my fellaz who just here to play
(get up)
let me see you do that dance
zippin of me like they just got pained
(get up)
let me see you do that dance
Don't act like you don't know it
Do boy the beat's so how it's glowin
and I know you want to show it
That if your with me just say hell yeah!
