

All Shine On

The Handcuffs

Where do we begin?
At the beginning of the end.
Where do we go when the going gets too slow?
Turn it around and start again.
To the back and the bottom and then we will all shine on,
all shine on and stay where all the good things find you.

Time, takes time, where does it go?
And mine? I just let it flow under the bridge and over the wall
'cuz someone answered the call.
Then we will all shine on,
all shine on and stay where all the good things find you,
good things find you.

To the li-ight.
To the li-i-ight.
To the li-ight.
To the li-i-ight.

Where do we begin?
How does it all end?
Start all over again and all shine on,
all shine on and stay where all the good things find you,
good things find you here.
Here and everywhere.
Let's go and go where we never dare.

And we will all shine on,
all shine on,
all shine on,
all shine on and stay where all the good things find you,
good things find you,
good things find you.

To the li-ight.
To the li-i-ight.
To the li-ight.
To the li-i-ight.

Where do we begin?

How does it all end?

Start all over again.
