

# Under the Dome

## Jinjer

Under this dome of ignorance  
Men shalt all live as one  
Wisdom lost its significance  
For the sake of the holy scum  
Joyfully plebs wishes for this bliss  
That blindness, that barbarity  
The empty idol will you gain and kiss  
Knee down free your insanity  
Bury the sparkle of thought  
Submerge in the oblivion  
Abandon all knowledge to rot  
Accept my dominion  
A new era of lies has begun  
Listen! The bell tolls  
Fake messiah to come  
So eagerly crowd calls  
Under this dome of indolence  
Sloth in infecting the mind  
No one will show their dissidence  
These letters they cannot unwind  
Childhood begins with conversion  
Young scions are given no will  
Their roots deep in perversion  
Of truth from this false beacon hill  
Under this dome of stupidity  
Cassocks teach to forgive  
With hearts full of rigidity  
Hoods only aim to deceive  
These malevolent cowls  
Red of blood and filth  
There's no compassion, no ruth  
When empty idols urge to kill  
Bury the sparkle of thought  
Submerge in the oblivion  
Abandon all knowledge to rot  
Accept my dominion  
A new era of lies has begun  
Listen! The bell tolls  
Fake messiah to come  
So eagerly crowd calls  
Under this dome of indolence  
Sloth in infecting the mind

No one will show their dissidence  
These letters they cannot unwind  
Childhood begins with conversion  
Young scions are given no will  
Their roots deep in perversion  
Of truth from this false beacon hill
