

How Bout Now (Rusty Hook Flip)

Drake

"That's the shit I'm talking about though, like

You changed up

You don't even fucking link nobody no more,

You just dash me away like a cyattie.

Yo, you cheesed me dog." Always felt like my vision been bigger than the bigger picture

Crazy how you gotta wait until it's dark out to see who really with you

Crazy how even when it miss you, shit'll come back around and get you

Crazy like all my niggas

Crazy like all my niggas

Remember I deleted all my other girls numbers out the phone for you?

Remember when you had to take the Bar exam, I drove in the snow for you? Yeah you probably don't remember

half the shit a nigga did for you

Yeah, you ain't really fuck with me way back then, girl, how 'bout now?

'Cause I'm up right now ('cause I'm up right now)

And you suck right now (and you suck right now)

Oh you thought you had it all figured back then girl, how 'bout now

'Cause I'm right now ('cause I'm up right now)

And you suck right now (and you suck right now)

Yeah you thought the little effort that you put in was enough, girl, how 'bout now?

Yeah, girl how 'bout now

How 'bout now girl, what 'bout now girl, how 'bout now Yeah always been daddy's little angel

I bought your dad a bunch of shit for Christmas, he ain't even say thank you

I had no money left from acting, I was focused on the music

I used to always try and burn you CD's of my new shit

You be like "who's this?" I be like "me, girl"

You be like "oh word, true shit?"

Then ask if we could listen to Ludacris

And car rides made me feel like I was losing it

Yeah, made me feel I ain't have it like that

Like I was average like that

Started drinking way more than I used to

People form habits like that, girl

Yeah, man enough to tell you I was hurt that year

I'm not even Christian, I still went to church that year, guess

I just had to pretend that year

I ain't even see my friends that year

Places that I should've been

You ain't really fucked with me way back then but
