

# Like Me

Ross Lynch

When you meet a girl you like You should take my advice  
Girls like boys like me Take the lead  
She likes it when you're in control  
Let her breath  
Chill out and go with the flow  
Make all the plans  
Don't be impolite I know what girls, know what girls  
Yeah  
I know what girls like A quick glance  
Bat your eyes and look away  
Take a chance  
Why not ask him on a date  
Pick up the check  
No bake him a pie I know what boys, know what boys  
Yeah  
I know what boys like I know what girls like you know what I mean?  
I know what boys like, boys like girls like me  
I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me  
LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME Hang with the guys  
Don't let her know how much you care  
Look in her eyes  
And tell her even if you scared  
You got it wrong  
No I got it right I know what girls, know what girls  
Yeah  
I know what girls like Stretched pants, cute sweater and sweet perfume  
Don't dress for him, it's better when you dress for you  
I keep it loose  
My outfit is tight I know what boys, know what boys  
Yeah  
I know what boys like I know what girls like you know what I mean?  
I know what boys like, boys like girls like me  
I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me  
LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME All the boys they try to woo me  
The more they chase the more I resist All the girls they think I am groovy  
There's only one girl that's on my list I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me

I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me  
I know what girls like, girls like boys like me  
I know what boys like, boys like girls like me I know what girls like, girls like boys like me  
LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME, LIKE ME
