

# Diabolus

## AnD

I'm at the darkest side of life  
I've crossed the demon's paradise  
I've seen the fallen angels' eyesSome call this state insanity  
It's just as dark as it can be  
There's no way out I won't be freeCan someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in veinI'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far awayCan't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sand  
DiabolusAll through my life is close to hell  
I know my crime, I know it well  
There's no regret for me to tellI'm lost inside my misery  
I've prayed to God to set me free  
But there's a darker voice inside of meCan someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in veinI'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far awayCan't find the way  
The vision won't be clearer  
I see blood on my hands  
No more footprints in the sandUnleash me from my chains, who am I?  
I'm a slave under my own failures  
I'm a sinner that lives in a lie  
I've been down to the deepest valley  
But who am I? Please help meCan someone hear my call?  
Come and help me through it all  
Can you ease the pain?  
So my life won't be in veinI'm heading to the stars  
But the road won't lead no longer  
Up to the sunrise it won't heal  
The liberty seems far awayCan't find the way  
The vision won't be clearer

I see blood on my hands  
No more footprints in the sand  
DiabolusUnleash me from these chains  
Release me from this pain  
I'm lost in miseryUnleash me from these chains  
Release me from this pain  
I'm lost in misery
