

My Vision

Casey Veggies

Yea

Yea

Oh yea

Oh yea

Yea

I got some shit to say on this one mane We made it man, we did it

She playin up, I'm livin

Girl listen to my wisdom

If you don't, you trippin

4-4, still tippin

They stepped on me, they slippin

You can work hard, try to get it on

Now bet y'all to try to take it off

Girl go hard and take it up

It's the only thing that fulfill my dreams

Life been kinda hard ladies

So go and get me hard baby

We made it man, we did it

Me and all my niggas

Don't worry bout them critics

They don't know my digits

They don't see how we livin

I moved out the hood

I'm cool now, we good

And I knew that I could

We made it man, we did it

I treat we like my decisions

I make it in, I break it in

Not worried, about to see it later

I'm geeked up into the street truck

With the Visa and a diva

She see us, we the reason

For the season, oh Jesus

4-4, still tippin

They stepped on me, they slippin

You can work hard, try to get it on

Now bet y'all to try to take it off

We made it man, we did it

She playin up, I'm livin

Girl listen to my wisdom
If you don't, you trippin
4-4, still tippin
They stepped on me, they slippin
You can work hard, try to get it on
Now bet y'all to try to take it off
Young Mufassa, we was just out callers
Grew up pro scholars but never went to college
Should I feel abolished 'cause I didn't go get knowledge?
Hell nah, men I'm on it and I'm out here getting these dollars
I won two with no shame,
Let you down, that's no way
I'd choose you first any day
Never put no one above you
You got my heart, I really love you
Sacrifice it all just because you
And if I lose it all we got each other
Yea, we got each other
We made it man
I just deposited 100 bands
In the bank doing the running man
I'm the Son of Sam, I'm the youngest champ
She go so fast and guess what
All these hoes fuck, nigga shade up
We made it man, we did it
She playin up, I'm livin
Girl listen to my wisdom
If you don't, you trippin
4-4, still tippin
They stepped on me, they slippin
You can work hard, try to get it on
Now bet y'all to try to take it off
You appeared as my friend, I thought we was homeys
And that time passed, you kinda outgrown me
I mean you kinda don't know me
And don't trust my wisdom
Take you on them vacations,
But first you gon see my vision
Yea, but first you gon see my vision
Yea, but first you gon see my vision
But first you gon see my vision
Yea, but first you gon see my vision
