

# Tip

## Finger Eleven

I gave it all I gave it up then  
I took it in and got enough but  
I try to cancel out  
Whatever I can't laugh about So what does that say  
There can't be anyway  
I've done my worst and no one knows One more day to fool them all  
One more day to drop the ball  
One more day to fade away Fill a head with sand just to make it better  
I had the chance to beat it in but I never  
I should have taken it right then One more day to fool them all  
One more day to drop the ball  
One more day to fade away Now you've been taken  
You won't stop shaking  
Embrace every minute  
You're all that's left in it  
It's not happening  
Some other day you'll fool them all  
One more day to drop the ball  
One more day to fade away
