## Tip

## **Finger Eleven**

I gave it all I gave it up then I took it in and got enough but I try to cancel out Whatever I can't laugh aboutSo what does that say There can't be anyway I've done my worst and no one knowsOne more day to fool them all One more day to drop the ball One more day to fade awayFill a head with sand just to make it better I had the chance to beat it in but I never I should have taken it right thenOne more day to fool them all One more day to drop the ball One more day to fade awayNow you've been taken You won't stop shaking Embrace every minute You're all that's left in it It's not happening Some other day you'll fool them all One more day to drop the ball One more day to fade away
