Boobie Miles

Big K.R.I.T.

[Hook]
Get money, dont be no lame
Bench warmers never ride foreign, so play the game
Never drop the ball, never accept a loss, get back up if you fall
And when your number called, you better give your all
I hope you give your all
You gotta play until the end
The only difference between a winner and a loser is a winner plays until he wins[Verse 1]
Aint nothing for free so get your ass up
My partner said if we dont speed then they might pass us
So we hit 85, tryna keep this dream alive
All I see is green, I think these screens is f*cking with my sight
Nowadays hoes claiming that they crushin
Bop a darling in my bucket til their heads catch concussions
But please dont push my buttons, I dont know you like that
Cant do no favors for these haters, I dont owe you like that
Well I guess its the allure like when you need to score
One second on the clock and the shots all yours
Hit or miss, we take the risk
Cause anything is better than viennas and warm grits
Trading bust it babies for fly divas that buck
Her only concern is if my car match her clutch
Yeah she a gold digger but that pussy good
So what the f*ck, dont be late for this players ball
Hurry up and...[Hook]
Get money, dont be no lame
Bench warmers never ride foreign, so play the game
Never drop the ball, never accept a loss, get back up if you fall
And when your number called, you better give your all
I hope you give your all
You gotta play until the end
The only difference between a winner and a loser is a winner plays until he wins[Verse 2]
They told me life is what you make it
So what you been creating on your free time?
Ill lend you bars if you need rhyme or reason
Some people change, its a part of life like seasons
Just be aware that everybody aint your friend
Theyll be gone with the wind once your jumpshot dont go in
Or your ACL torn and youre a couple yards short

From a Super Bowl Championship and it was down 4
Gotta play the field, be willing to ride, willing to dive
For what you desire, call your pop fly, but never collide
With other players that play the game
Dont be eager to run with crowds, stay in your lane
Pass the knowledge on to your team, but carry the flame
Cause its yours and yours alone to brighten your way
Put God first and free your soul
Cause even Olympic runners sometimes lose their gold
So...[Hook]
Get money, dont be no lame
Bench warmers never ride foreign, so play the game
Never drop the ball, never accept a loss, get back up if you fall
And when your number called, you better give your all
I hope you give your all
You gotta play until the end
The only difference between a winner and a loser is a winner plays until he wins
