

# Derailed

F.O.N.

And derailed, we failed  
To keep our love on course  
Now we lost what was left  
Of any chance that we had  
What a way to go out  
And derailed, I'm afraid  
I failed to keep you by my side  
The mistakes we made  
Will keep us drifting farther apart  
What a way to go out
