Tomorrow's World

Joe Jackson

Hey, did you ever see so many stars in the sky
Yeah, and can you imagine how many we can't even see
Imagine we're in the jiddle of the galaxy
Yeah, imagine how many blazing stars there'd beWe're gonna fly in tomorrow's world
And there'll be cities on the moon
No one'll die in tomorrow's world
And miracles will happen soon
In tomorrow's worldHey, d'you remember that rocket
They blasted into God knows where
Yeah, with the pictures for someone
To find with chemical symbols sayingHi how you doin' to the folks out there
Yeah, they put the bach music in
Left all the shit behindSometimes, I think we should be sending out an SOS
But mostly I just think of all the things I can't wait to seeWe're gonna live in tomorrow's world
We'll live on power from the sun
We're gonna live in tomorrow's world
And there'll be food for everyone
In tomorrow's world
