High

Royal Headache

Tried to call you on the phone 'cause you get me high.
Couldn't leave your name alone 'cause you get me high.
I know I could just curl up and now I don't know why
When I just wanna stay with you 'cause you get me high, high.And now I wanna be with you.
Now I wanna be with you.
Now I wanna be with you.
Now I wanna be with you, be with you.Tried to call you on the phone 'cause you get me high.
Couldn't leave your name alone 'cause you get me high.
I know I could just curl up and now I don't know why
When I just wanna stay with you 'cause you get me high, high.I saw your skin and bone,
I knew you all along,
And now I wanna be with you.I looked into your eyes,
But so much was disguised.
Now I wanna be with you, be with you.[Instrumental and "Ohh"s]Come get me.
You get me high.Please come get me.
You get me high.
