

Somebody New

[Billy Ray Cyrus](#)

I wish you all the best, love, love and happiness, love
And everything you'd ever want, have, see or do
And from the bottom of my heart
I hope you never find somebody new And anyone who tells you that broken hearts mend easy
Has never ever loved the way that I have loved you
As long as there's a chance for us
I hope you never find somebody new You have not convinced me yet to go
My heart still says there's something going on
And until I know we're finally through
I hope you never find somebody new I'm acting like an actor, dancing like a dancer
But when the curtain falls I always call out for you
As long as I still love you
I hope you never find somebody new You have not convinced me yet to go
My heart still says there's something going on
And until I know we're finally through
I hope you never find somebody new
I hope you never find somebody new Somebody new, somebody new
Somebody new, somebody new
Somebody new
