

Noises (kryptogram remix)

Jessi Malay

Turn the music up
Oh, baby, I like it loud
I know you wanna fuck with me
We rock to the beat
And then we don't slow it down
I'mma fall on yo lean
Boy, you get up on me
That's when I look back
I wanna see you putting work in, take it all
Take it all...
Cuz if you gonna doubt me, you'd betta walk in
Ready to go harder, to go home (go home)
I can listen to you all night
The way you say my name
I can be your goldmine
So promise take you down
Oh, I like the sound
Oh, baby, yeah I like the sound
Oh, yeah I like the sound
When you'll be talking in my ear
Oh, yeah I like the sound
First I wanna make it when the lights go down
Yeah, I like the sound
So whachya talkin bout? Give it to me, let's get naughty
I like the way you work my body
Give it to me, let's get naughty
I like the way you work my body
Boy, you're everything
Rub me up ten like a cellophane
We could do anything
Whenever we're together, boy
You make me beg, oh
The way you do your thing
Got me making faces I've never seen
Yeah, you're everything
I want you get it down I can listen to you all night
The way you say my name
I can be your goldmine
So promise take you down

Oh, I like the sound
Oh, baby, yeah I like the sound
Oh, yeah I like the sound
When you'll be talking in my ear
Oh, yeah I like the sound
First I wanna make it when the lights go down
Yeah, I like the sound
So whachya talkin bout?La la-la lalalala-la-la
La-la la la-lalalala-la-la
Whispering in my ear
Oh, baby, I like the words I hear
Will be tackling boy all night long
Boy, tonight you can say nothing wrong
Cuz I like the sound
