

Magic

Tweet

There goes my heart again
Joyful at how we've made a great connection
That's for sure
I know that's since, I got u boy
All I see is sunshine, oooh you make this girl blush all the time
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh
There goes, there goes my heart again
Wonderful
I say u are the best thing since ice cream
I made my wish, I got you boy
And all I see is starlight,
Ooooh you make this girl rush home at night oooooh
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh
The love you give me, goes
Said it's so outstanding, goes
My heart steady beating for you, goes
And I'm enchanted and it, goes
I'm smitten with, goes
How all this is happening, goes
My heart is telling me this love is so right, oooooohhh
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh
It must be magic, it must be, cause what u do to me I can't understand it, ohhhhhh yeahhh
