How The West Was Won

Laibach

Here's to health to the men of the nation
Here's to health to the men of the nationCome let us prepare, brothers
That are joined on this merry occasion
Let's drink, laugh and sing our wine has a springThe world is in pain, our secrets to gain
But still let them guess and gaze on
They'll never divine, the word or the signOf free strong men of the nation
Here's health to the men of the nationIt's this and it's that, they cannot tell why
So many great men of the nation
Should aprons put on to make themselves one?With the men who have found their salvation
Here's to health to the men of the nation
Let's drink to the men of the nation
Free strong men of the nationThen joined hand in hand to each other
We'll stand as free strong men of the nation
