

Somewhere On the Other Side

Spencer Day

There's a lonesome road running through a darken valley
There's a stormy sky casting shadows on my soul
With a weary sight on my courage I will rally
Resolute to wonder till I reach my goal And no matter how, the four winds blow
I'll keep the faith because I know
Somewhere on the other side
Somewhere on the other side
Somewhere on the other side
There's a light that's gonna shine on me There's a sacred place
Where the madness cannot reach me
Where the sham trait
And my demons dare not go
I will clear my head and I will let the silence teach me
How to seek the questions
The answer knows
And the wounded child that left behind
Will take my hand
And we will climb to
Somewhere on the other side
Somewhere on the other side
Something gonna to turn the tide
Break the chains and set me free When I cross the great divide 2X
Somewhere on the other side
There's a life that's gonna shine on me....
