

It's Ok

Ben Hammond

It's ok to be in love, it's ok
it's ok to be in love, it's ok
this is someplace I can be
this is somewhere I can see
this is something I can believe in
don't you ever go and leave me it's ok to be alone, it's ok
it's ok to be alone, it's ok
you tell me you need to feel needed
and I know I can be conceited
but go ahead and make me feel
something I don't know how to feel don't you ever go and drop me
now (that) I've got no way of stopping
don't you ever try and change things
it's ok, just rearranging,
rearranging it's ok to be in love, it's ok
it's ok to be in love, it's ok
gimme a light, gimme tonight, gimme something warm
gimme a light, gimme tonight, gimme something warm
