Loverman Stick Up

Silya & The Sailors

you pull up in your cabriolet yeah you get a look or two
this could be your lucky day i got nothinâ€™ else to do
so i bruise your ego before you say hello
cause you stare and drool like youâ€™re barely legal
man youâ€™re such a boy and i am not your toy
but now youâ€™re mine iâ€™ma show you how i do oh
cause i'm a lady never gonna get me
and i can tell you never get none get none
listen baby about to get crazy
someone needs to show you how it's done done
how you actinâ€™ yeah watch how youâ€™re actinâ€™ now
break it down it's a loverman stick up
how u actinâ€™ better watch how youâ€™re actinâ€™ now
break the fall it's a loverman stick up
you should just do what i say now i got your attention
oh boy you better wanna play but i forgot to mention
if you try to run I will hunt you down
my words are like bullets so you never forget
they go bang bang like a tommygun
duck down deep i will hit you go numb numb
