Down Together

Midaz & Ellie

VERSE 1:

If we're going under,got my scuba kit
And I got one for you incase we take a dip
Now I ain't really good a swimmer
But I heard you were
So you can help me out as we sail about
And with every kiss we share, I give you my breath
So no matter how deep, you gon'have some left
Peace out, see you later world
I'm free fallin'just me and my baby girl, go

CHORUS:
hold your breath
Count to ten
Don't worry about what happens next
Cause if we're going down, we're going down together
When all we have is far from land
Oh you just gotta take my hand
'Cause if we're going down, we're going down together
Nanana-nana, Nanana-nana (x2)
Cause if we're going down, we're going down together

VERSE 2:

head first we gon'splash, bad olympic score
Their opinion blocked out got us livin'more
We don't mind, we don't mind, do our own thing
We can fly, we can fly, get your own wings
Girl we tackle two headers like they're kiddie pools
Plus you taught me how to dream, I call it night pool
We makin'waves, got em'signin'up for surgery lessons
Aaaah hope the teacher won't forget to mention...

CHORUS

BRIDGE:

Under pressure, stormy weather
Cold and lost, you just bring me back
Bring me back
Losin'north, wrecked unsure
Thrown overboard
Drowning in your love
In your love....

CHORUS
