

Take Me

Lari White

Forty miles outside of Houston's city limits
El Dorado with a full tank of gas in it
It'll take us where it thinks we need to go
All we got to do is keep it in the middle of the road
Take me up to Wichita
Hold me in Niagara Falls
Rock me in Memphis
Kiss me down in New Orleans
Marry me in the Keys
I don't care where we go
As long as you take me
And baby, make a left on exit 98
My sister told me that the etouffee is great
Yeah, we could split a cold one to wash it down
And watch the sunset on the face of a sleepy little town
Take me up to Wichita
Hold me in Niagara Falls
Rock me in Memphis
Kiss me down in New Orleans
Marry me in the Keys
I don't care where we go
As long as you take me
Ninety miles an hour
One kiss every minute
It's my favorite car
As long as you're in it
Take me up to Wichita
Hold me in Niagara Falls
Rock me in Memphis
Kiss me down in New Orleans
Marry me in the Keys
I don't care where we go
No, I don't care where we go
As long as you take me
Take me, yeah, yeah, yeah
