I Got You

Cimorelli

Baby I know that what we got it may not look like much
There's problems knocking at our door
Sometimes it feels like these walls are closing in on us
And we can't hold them anymore
And we got troubles stacking up so high like building blocks
Just a breath could knock them down
So we hold the air inside our lungs and hope it's long enough
To keep them from crashing to the groundBut everything's going to be okay'Cause I got you, whoa whoa
I got you, whoa whoa
When we got nothing left to lose
Baby, you got me and I got you
Ohhh, whoa, whoaa
Ohhh, whoa, whoaa
There's nothing in our way that can't be moved
Baby you got me and I got youWe'll stand together through the rain
We'll take the blows, we'll feel the pain
Even if it leaves us bruised
You'll be the shelter in the storm
I'll be the fire that keep you warm
Anything to get us throughBut everything's going to be just fine'Cause I got you, whoa whoa
I got you, whoa whoa
When we got nothing left to lose
Baby, you got me and I got you
Ohhh, whoa, whoaa
Ohhh, whoa, whoaa
There's nothing in our way that can't be moved
Baby you got me and I got youIt's not where we've been, it's where we're going to
And I'm not alone as long as I got you, (I got you)
I got you, whoa, whoaYou'll be the shelter in the storm
I'll be the fire that keep you warm'Cause I got you, whoa whoa
I got you, whoa whoa
When we got nothing left to lose
Baby, you got me and I got you
Ohhh, whoaaa, whoaaaaa (I got you)
Ohhh, whoaaa, whoaaaaa (I got you)
There's nothing in our way that can't be moved
Baby you got me and I got you
There's nothing in our way that can't be moved
Baby you got me and I got you
