

# I Like Men

[Carol Welsman](#)

I can't look at the rocket launch  
The trophy wives of the astronauts  
And I won't listen to their words  
'Cause I like birds  
I don't care for walking downtown  
Crazy auto-car gonna mow me down  
Look at all the people like cows in a herd  
Well, I like birds  
If you're small and on a search  
I've got a feeder for you to perch on  
I can't stand in line at the store  
The mean little people are such a bore  
But it's alright if you act like a turd  
'Cause I like birds  
If you're small and on a search  
I've got a feeder for you to perch on
