Be With You Again

C21

I set the course I'm coming back
I never should have gone
I started listen' to the radio
They write of you in all the songsYou say it all you make it clear
We shouldn't be apart
I couldn't take anymore like this
Like holding the world in my heartI wanna see you
Don't you know
I wanna hold you
Can't you tellThat every little bit of me
just wanna be the song in your heartI wanna comebackI don't wanna let you go
This is the way I'm gonna let you know
Baby look at us
I don't wanna live with my fingers crossed
Could I tell you this
Could I show you that
I just wanna be with you againIf only I could say the words
And see the smile on your face
If only I could make it back in time
That's when the world is mineI wanna see you
Don't you know
I wanna hold you
Can't you tellThat every little bit of me
just wanna be the song in your heartI wanna comebackI don't wanna let you go
This is the way i'm gonna let you know
Baby look at us
I don't wanna live with my fingers crossed
Could I tell you this
Could I show you that
I just wanna be with you again
