

# Something Good

Estelle

Courage! I was hurt for so long  
Doesn't matter who was right,  
Doesn't matter who was wrong,  
All that matter is I'm back where I belong  
Yeah!

Got my girls, I was down  
I was looking everywhere in the long way  
But baby then I opened up my eyes and I realized  
Yeah!

I got something good for you baby  
I got something good for you baby  
I got it, I got it, I got it, I got it  
I got something good for you baby  
I got something good for you baby  
I got it, I got it, I got it, I got it For the rest of my life, all this good I've got to use  
Ain't nothing more to lose, I feel better  
Now I'm back where I belong, yeah!  
Got a think 'bout my love,  
There's a price you've got to pay  
Can't control the way it gets higher, higher, higher every day!  
Yeah! C'mon!

I got something good for you baby  
I got something good for you baby  
I got it, I got it, I got it, I got it  
I got something good for you baby  
I got something good for you baby  
I got it, I got it, I got it, I got it If you're with me and you know you got it  
Then let me hear you say I got it  
I got it, I got it, I got it, I got it  
(x2)
