

# Best Day of My Life

## Slow Pain

Slow Pain]

Ha ha ha

They say one man can't change the world

But I'll never know

If I don't try

[Verse 1]

Thank you Lord, O Father

For another blessed day

The world is a ghetto

So to you, I pray

Hood times, the good times, they come and go

I live

Day to day

And I take life slow

I woke up this morning

Feeling kinda strange

How could the world get better?

The hood needs a change

Stop the violence, keep the voice, let's all get along

"Love And Happiness" by Al Green, that's my song

There's something wrong when we killing each other

Over some streets we don't own

A place we call home

Our children all alone

Growing up evil ways

Dropping out of school with no grades

Damn (Damn)

What's the future when we living in the past

There's no future in the past, you can't fix broken glass

I'm a soldier for my people

So I had to speak my mind

Thank you Lord, O Father

Same verse, second time

[Chorus]

[Singer] Just breezin', chillin', feelin' good

Nobody trippin' in my hood

[Slow Pain] Nobody trippin' in my hood

[Fingazz] This is the best day of my life

[Singer] Just breezin', chillin', feelin' good

Nobody trippin' in my hood

[Slow Pain] It's all good in the hood

[Fingazz] This is the best day of my life

[Verse 2]

Today, I woke up, with every reason to live

My family, my friends, my lady and my kids (I love 'em)

My fans across the world, who love it like I do

Good lookin' out

Brown Love back to you (Brown Love)

It's a worry day

Struggling to breathe

I miss the good ones that's gone

Restin' in peace

Every soul, every hood

Every youngster up to no good

Put your

Heat away

Learn to live another day

I swear it's never too late

To be a better man

I can't get a job

I can't - yes, you can

The doctor said I only got

Three years to live

But I'm a fight til I gone

In the name of my kids

I'm a fight til I gone

For my people to rise

I'm a fight for twenty years

Til the doctor's surprised

To all my players that's ill

I know that it's real

Say a prayer when you down

It's better than pills

Come on

[Repeat Chorus]

[Bridge: Singer]

My spirit's inside

And I'm feeling alright

Just another broken day

The type we made it out of line  
Not a  
Cloud in the sky  
The lady looks so nice  
I won't let a day like this keep  
Passing me by

[Verse 3]

Today, I seen an innocent man  
Get released  
Today in the world  
No drama, just peace  
Today, I seen my baby girl take her first steps  
Another homey got saved and got blessed  
I'm not a preacher  
I'm speaking words from the heart  
Don't get it twisted, I been down from the start  
Slow Pain, little savage, love the Father and the Son  
Today, I made a difference and I threw away my gun

[Repeat Chorus]

[Slow Pain (Fingazz)]  
The best day of my life  
I see it coming (This is the best day of my life)  
This song is dedicated  
To everyone on the streets (This is the best day of my life)

[Fingazz]  
"Fi-fi-fi-fi-fi-fi-Fingazz on the track..."
