

Red On White

Stabbing Westward

Now I'm so tired
So, so tired of working this out
Going to give myself up
Up to the truth of what this is, of what I am
Take from me all of my blood
Take from me all of my head
This is the best thing I can do
Why is it me instead of you
(I come down)
Now this is real
I can't go back
Caught up with
Everything here tonight
Going to fuck myself up
Going to throw myself away
Going to give this to you
Give you what I've become
First red on white then red on red
I left my soul back in my bed
This is the best thing I can do
Why is it me instead of you
(I come down)
