

What Was You Thinking

[Mark Chesnutt](#)

Mister, you don't know me but I've heard about you
And how you spend your nights in here, just what you put her through
So I came here to find out if they sell the drink so strong
It would make a man fool enough to go and do her wrong Tell me, what was you thinkin'? What was you
drinkin'?

I don't want none of that stuff
It must have made you lose your mind or you never would've lost her love
It would really help me, mister, if you tell me, I'll never bother you again
What was you thinkin'? What was you drinkin'? I guess I'd better go now, it's gettin' kind of late
And I don't have to tell you she don't like to wait
I heard it's better to have loved and lost and I must say I agree
Since you're the one who lost her love and drove her straight to me But tell me, what was you thinkin'? What
was you drinkin'?

I don't want none of that stuff
It must have made you lose your mind or you never would've lost her love
It would really help me, mister, if you tell me, I'll never bother you again
What was you thinkin'? What was you drinkin'?
