

# Saviour (Vox)

## VNV Nation

As the stars appear  
I know I'll find you staring at the sky  
Pointlessly reaching for some light  
You hope to guide your sorry way Your body bleeding  
Your body burned  
Your body scarred  
Around the cinder of your heart A God of love  
A God of care  
A God of hope  
A God of words A God as lost as you and blind  
To fill your hollow soul again  
You seek a God to stand above you  
Wrapping healing arms around you You'll find another God of pain  
A God of suffering and tears  
Give yourself unto your God  
Sacrifice yourself again Burn your thoughts erase your will  
To Gods of suffering and tears  
Tie hallowed bonds around your hands  
Kneel before this seat of shame To Gods as lost  
Gods as blind  
Gods of suffering and pain
