

# My Sacrifice

## Rhapsody of Fire

I need sometime  
To understand  
'Cause I'm still fighting  
Along this cold land  
Just look inside  
Then start to think  
Just leave me alone  
See my sacrifice  
Now Time has come  
Hear my confession  
I was blind  
Losing myself  
Just hold me close  
Just make me strong  
Just tell me lies and  
The visions of tales never told E nella mente te!  
I'm standing alone in a dream My sacrifice  
In this morning light  
If I walk alone  
Let this road lead me home (The) Night has come  
This time I'll be strong  
Just take my hand and guide me away  
Facing the fear, I'm losing myself again  
Dark shadows, whispers  
And sad rhymes in my restless soul Eternamente in me!  
Passioni, sospiri e te My sacrifice  
In this morning light  
If I walk alone  
Let this road lead me home Sembri cercar  
Momenti sognar  
Di lontani cammini narrar  
Resisti e ritorna mio eroe! My sacrifice  
And time passing by  
If I walk alone  
Let this road lead me home  
Dark angel eyes  
Whit a burning desire  
In this morning light  
Just where nothing is real

Is real  
We'll found what we need  
My love  
Where nothing is real!
