

# Counter Sabotage

## Soulfly

Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Truth hits one and all  
Soul keep from falling  
Control your thoughts and mind  
Corrode your thoughts and mind  
Feel nothing at all, scream but no one hears  
Fall and can't get up, visions of things to come  
Cannot speak, cannot speak never  
Cannot speak, cannot speak never  
Rule, rule your world, fate cannot be touched  
Slow, the worms will crawl, crawl from inside out  
Deep, deep inside you feel, escape to nowhere fast  
Destroy all your demons, lay and laid to waste  
Cannot speak, cannot speak never  
Cannot speak, cannot speak never  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Lost, cannot be found, worms are coming out  
Blind, you cannot see, face your reality  
Strength, beyond strength, scars are deep inside  
Lies you cannot hide, alive, alive you rise  
Cannot speak, cannot speak never  
Cannot speak, cannot speak never  
Control your destiny, slaughter your enemies  
Sabotage, one and all, watch, watch them fall  
Die, forget your lies, sky will fall tonight  
Obey 'til the end, end is now in hand  
Cannot speak, cannot speak never  
Cannot speak, cannot speak never  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise  
Counter sabotage will bring them to demise
