

# We Just Havin Fun

## Nipsey Hussle

Don't worry bout what people gonna say girl, do what you want to

... got you open and yeah she got me on too

But we just havin fun, we just havin fun

We just havin fun, we just havin fun X 2 As I travel across the world, don't need needs 1st class flights, I make songs

But I get those, . but my gas right

But that's life, sacrifice, you chase a dream, that's the price

These red carpets and bright lights, and black suburbans at late nights

Ain't new to me, standing on the couch and my wife be the ...

I was young, visualizing what I grew to be

And it all turned out so beautifully

Man, night times is usually, a colorful sky in a ... week

A bottle of Siroc and a couple of freaks

And they driving like it's hot, 400 degrees

Wait, get with it, my hotels, kill it

And my windows stretch from the floor to the ceiling

My coop, topless, the view, I promise

We fuck off a couple thousand shoe

Shopping, my swag... I laugh often

Remember when I told you I will have all this

Diamonds, flawless, we live ...

Just fuck with me on some bullshit

Don't worry bout what people gonna say girl, do what you want to

... got you open and yeah she got me on too

But we just havin fun, we just havin fun

We just havin fun, we just havin fun X 2
