

# Power

## David Phelps

No mountains ever moved one inch at my command  
No waters parted at my feet  
Im just a witness to the wonders God can do  
Through willing instruments like me And when my best seems insignificant and frail  
He offers me the source of strength that cannot fail Power, straight from the Father  
Making me stronger  
And I know its not my own  
Power, straight from the Father  
Love like no other, Ive ever known There are days when circumstances spin out of control  
In ways I just cant understand  
Its as if the best of my intentions have conspired  
To reveal how powerless I am But there is One whose voice alone  
Brings me peace  
And when on high, he hears my cry  
He gives to me This holy energy can save, redeem and heal  
Like electricity, it flows through me and I can feel
