

# Just a Wasteland

## Failure Anthem

Day after day I think I've had enough  
Run away said everything but you call my bluff  
So come on come on come on come on and take me over  
(Over over)  
Cause you're what I need to get back  
You'll always be inside my veins  
You know I tried to quit, But[Chorus]  
I'm addicted to the high it's eating me alive  
I'm just a wasteland, a wasteland  
No need to lie you're already inside  
We're in this wasteland  
This wasteland until we dieNight after night I feel like giving up  
On your face I see it now you never wanted love  
So come on come on come on come on and throw me over  
I want the pain cause it's what I need to get back  
Your paranoia's killing me  
I'm getting sick again cause[Chorus]Follow the leader  
You can do the damage you need to do  
Well follow the leader  
I'll do the same to you[Bridge]  
So come on come on come on  
Come on come on come on  
Come on come on come on come on and take me overI shoulda stop the pain before you bled me out  
I shoulda tore you down shoulda walked right out  
Never had a chance cause you got me high  
But don't feel alive i don't feel alive (x2)[Chorus]
