Civil War

Funker Vogt

They fight against each other
Killing people of their own blood
For some very stupid reasons
Call it civil warThey fight for their religion
Wanna people make believe
That there is just one direction
Call it civil warCivil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all voidCivil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all voidThey kill their former neighbor
Sometimes even an old friend
They got nuts in their blind rage
This is civil warCivil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all voidCivil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all voidSo, look at all these countries
And try to get their point of view
Why they're so eager
In killing each others?Civil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all voidCivil war all over the land
Everything is destroyed
Soldiers are dying in the sand
Our cities are all void
