

# Redbird

## Redbird (Kris Delmhorst)

I saw the redbird fly  
bright flame against the sky  
burning against the sun,  
am I the only one?I watched the rose unfold  
Secrets we left untold  
The rose, the red red rose,  
still nobody knowsI split the pomegranate  
Restless until you've had it  
Sweet against the tongue, am I the only one?The blood red rubies of... Our sexuality
