

Radio Song

Flick

Maybe you should move on
'Cause lately things been going wrong
I can't keep shut up tight
I'm going to blow in time This is my song for the radio
Want the world to know
Let the whole world know Maybe I shouldn't ramble on
But lately that's been going on
I can't keep shut up tight
I'm going to blow in time This is my song for the radio
Want the world to know
Let the whole world know This is my song for the radio
Want the world to know
Let the whole world know This ground would break, my head would ache
If I would fall my eyes would crawl
Crawl away, crawl away, crawl away This is my song for the radio
Want the world to know
Let the whole world know This is my song for the radio
Let the whole world know
Let the whole world know This is my, this is my
This is my song
This is my, this is my
This is my song
