

# Lucky One

## Simple Plan

Why the stars are lined up so perfectly  
For everybody, but not for me  
Wish it could be easy  
But it never goes that way  
It's never like the movies  
It's never like they sayCHORUS:  
Well maybe one day I'll be back on my feet  
And all of this pain will be gone  
And maybe it won't be so hard to be me  
And I'll found out just where I belong  
It feel like it's taking forever  
But one day things can get better  
And maybe,  
My time will come  
And I'll be the lucky oneNow I can't stop thinkin'  
How this life could be  
I can keep pretendin'  
But honestly  
Does it really make a difference?  
Does it really ever change a thing?  
It's never like the movies  
It's never like you thinkCHORUS:  
Well maybe one day I'll be back on my feet  
And all of this pain will be gone  
And maybe it won't be so hard to be me  
And I found out just where I belong  
It feel like it's taking forever  
But one day things can get better  
Then maybe,  
My time will come  
And I'll be the lucky one
