

# Feel Your Love

## Outboxx

All that time alone made me go insane  
Wasn't hard to see I had lost control Then you came my way  
Still I don't know how  
And you warmed me with your smile  
I can read your eyes when you look at me  
I hardly turn to you Wanna feel your love tonight  
Gonna leave the past behind Holding on to pain made it hard to breathe  
Couldn't get away from my memories Then you wiped my tears with your soothing touch  
And you blew my past away  
Nothing can't compare when your close to me  
How I trust in you Wanna feel your love tonight  
Gonna leave the past behind  
Wanna feel your love tonight  
And now I feel your love  
Gonna leave the past behind  
So hear me baby All that time alone made me go insane  
Wasn't hard to see I had lost control Then you came my way  
Still I don't know how  
And you warmed me with your smile  
I can read your eyes when you look at me  
I hardly turn to you And now I feel your love  
So hear me baby Wanna feel your love tonight  
Gonna leave the past behind  
Wanna feel your love tonight  
And now I feel your love  
Gonna leave the past behind  
So hear me baby
