

# I've Got Five Dollars and It's Saturday Night

Faron Young

Well I've been working hard the whole week and now  
I'm a gonna have some wine women and song  
I gotta workin' each week but that's alright  
I've got five dollars and it's Saturday night  
Music and dancing pretty and fun it's gonna go on till way past one  
I'm a gonna go where the lights're bright I've got five dollars and it's Saturday night  
Gonna have fun tonight gonna get right tonight  
Everything will be alright cause tonight is Saturday night (hey)  
While other folks are wonderin' what the future may bring  
I'm a gonna have fun and feel no pain  
My pants are ragged but that's alright I've got five dollars and it's Saturday night  
[ steel - fiddle ]  
Music and dancing...
