

# The Hustlers

[Jesse Malin](#)

We're determined in situations  
Hot and sour, emancipation She's my baby, I don't love her  
Indoor mojo, I've been drinking We've got ourselves a little problem here  
We've got a little pride  
We've got ourselves a little problem here  
We've got ourselves in time World disclosure, name your poison  
We got cameras, got you covered  
A road to ruin, Your recession  
Got the fever in possession We've got ourselves a little problem here  
We've got a little pride  
We've got ourselves a little problem here I won't take you for granted  
I'll just take you for more Nothing can hurt you at all  
Nothing can hurt you with all your demons  
Nothing can hurt you all so take a bow We're not faking, we got something  
Broken promise, a situation
