Old School Love

Yoon Mirae

You know you want it baby
You know you need it baby
Come and get it baby
Old school love
You know you want it baby
You know you need it baby
Come and get it baby
Old school love
When you've been there all this time
The one that I've been thinkin' of
Way back in the day I had a thing for you
But I was too young, you said it wouldn't be cool
You said give you a call after a year or two
Now the time has passed and now I'm looking for you
You know you want it baby
(I can't fight it)
You know you need it baby
(I can't deny it)
Come and get it baby
(I wanna try it)
Old school love
It's time you took the time to see
This grown-up man I come to be
All the stages of maturity
I know that you are feeling me
When you've been there all this time
I've been searchin' tryin' to find
The one that I've been thinkin' of
Come and get this old school love
I finally found you, I can't believe it's true
You're lookin' so good, I can't believe it's you
I'm all bent out so what's it gonna be
Let it flow and fulfill, your curiosity
You know you want it baby
(I can't fight it)
You know you need it baby
(I can't deny it)
Come and get it baby
(I wanna try it)

Old school love
You know you want it baby
You know you need it baby
Come and get it baby
Old school love
I watched you grow up from boys to men
From rollin' high schoolers
To pushin' a chromed out Benz
Went from never lyin' to satisfyin'
7-up sippin', the Lex coupe dippin'
You used to run around the stage
Yeah, rockin' them shows
Now you all grown up
Laced them platinum and gold
Playtime is over ain't no kid no more
You used to rock small theaters
Now it's sold out tours
You turnin' heads, boo
You know the games that you chose
No need for gettin' caught up
In chasin' them hoes
Girls twenty-one plus, yeah, they waitin' on you
To put it down
Hangin' after shows when you come in town
You know the ones
The ones that used to sleep
(I can't fight it)
Yeah, they checkin' now
(Can't deny it)
(I wanna try it old school love)
You know you want it baby
You know you need it baby
Come and get it baby
Old school love
When you've been there all this time
I've been searchin' tryin' to find
It's time you took the time to see
This grown-up man I come to be
You know you want it baby
You know you need it baby
Come and get it baby
Old school love
