

# I Think You Should Know

3lw

Sitting here innocently  
I cross my knee cause you're lookin' at me  
You like what you see  
Baby girl looks at you  
You try to walk away  
But you took a second look  
What may look good to you  
May not be good for you  
Don't let my smile deceive you  
My body talk mislead you  
If You wanna talk to me forget it  
I gotta keep it real I must admit it  
If you meant to gladden me you didn't  
I think you should know  
I think you should know  
If you wanna talk to me I'm with it  
I gotta keep it real  
I must admit it  
You can go to jail if you try to hit it  
I think you should know  
I think you should know  
Do you need some company  
You're asking me  
I get up to leave  
And you follow me

You're lookin at my butt (Butt)  
And I'm wondering what (What)  
What may look good to you  
May not be good for you  
Don't let my smile  
Deceive you  
My body talk mislead you  
If you wanna talk to me forget it  
I gotta keep it real  
I must admit it  
If you're meant to gladden me you did it  
I think You should Know  
I think you should Know

If you wanna talk to me  
I gotta keep it real  
I must admit it  
You can go to jail if you try to hit it  
I think you should know  
I think you should know  
I can't deny I feel the vibe that's in the air  
I'm curious to see if there is something there  
I need to warn you mister that you should be aware  
It's at your own risk baby if you take it there  
[Repeat Chorus]
