

Let It Flow

Spiritualized

Here it comes and then it goes
And that feeling takes me home
And I don't know where I'm goin'

Let it flow

All I wanted was a taste
Just enough to waste the day
Just enough to make me sick

Let it flow

And it takes up all my time
And it lays me back a while
Makes me feel like I'm a child

Let it flow

Let it flow

Here it comes and then it goes
And it hits me, takes me home
I don't know where I'm goin'
And I don't know where I've been

But I'd do it all again

All I wanted was a taste
Enough to waste a day
Just enough to make me sick

I can't get too much of it

Here it comes and then it goes
And it hits me, takes me home
I don't know where I'm goin'
And I don't know where I've been

And I'd do it all again
