Reluctant Messiah

Immolation

Reluctant messiah, show us the way
Don't let us down, we have no one left
Your unwillingness to prove, what we believe
The signs you won't leave, we still seem to findSuch distance between us, but we know you are here
We feel your presence, it guides us along
But why won't you answer or send us some hope
We'll just keep searching for what we know is thereWhy has our day not yet come
We've sacrificed our fathers and sons
We spill blood but shed not a tear
Our anger grows, but so does our fearSpeak to us...
What have we done wrong
We just want to believe In something larger than life itself
Speak to us...
Let us know your voice
We just want you to see
Our faith is true
We just want you to see
Our faith is true
