

Dream Somehow

Oingo Boingo

Come to the rescue now
Come to the rescue and stay for a little while
Come to the burning house
All of the ladybug's children are screaming fire
Come to the rescue now Tomorrow may change, tomorrow may change
Or it may never come
Tomorrow may change, tomorrow may change
But it may never come
Turn around, turn around, turn around, what do you see? Come to the rescue now
Come to the rescue before all our worlds collide
Life is a dream somehow
Life is speck of dust lodged in God's eye
Life is a dream somehow Come to the rescue now
Come with a mission and come with a broken heart
Life is a dream somehow
Life is a dream and our lives are a world apart
Come to the rescue now Tomorrow may change, tomorrow may change
Or it may never come
Tomorrow may change, tomorrow may change
But it may never come
Turn around, turn around, turn around, what do you see? Come to the rescue
Life is a dream somehow
Life is a nightmare and life is a bitter pill
(Life is a dream somehow)
Life is a Disneyland ride which is better still
Come to the rescue now Life is a drowning pool
Life is a circus for fools just like you and me
Life is a mortal coil
Wrapped in cheap tin foil on a kitchen sink
Come to the rescue now Tomorrow may change, tomorrow may change
Or it may never come
Tomorrow may change, tomorrow may change
But it may never come
Turn around, turn around, turn around, what do you see? Dreams somehow, come to the rescue now
