Talk Show

Belvedere

Nothings on TV and I don't care, gonna watch a talk show I don't care, all these topics mostly blow my mind, always feel i'm just a step behind and we go, go-go Jenny Jones and Ricky Lake, all these tabloid shows are always fake, how much more of this shit can I bare, listen to the hand but don't go there. (Jerry - "Some of that we can't show on the air"). Nothing left this time when i'm alone, too intense to even answer the phone, make'em over they look like a freak, even though they did it twice last week and we go, go-go Jenny Jones and Ricky Lake, all these tabloid shows are always fake, how much more of this shit can I take.
